

TURKISH DELIGHT

PRODUCT CATALOGUE

ABOUT THE DELIGHT

A short history of the delight was derived from the Otoman word “rahatül – hüküm” which means “makes the throat “ at ease” or “repose” or “comfortable “ . Though lokum -delight- is known since The 15th. Century up to now in Anatolia, it had been spreaded in the borders of Otoman Empire especially during the 17th.Century. It had been let known as the name “Türk Lokumu” : Turkish Delight in all around Europe by a British traveller during the 18th. Century.

Lokum which means Turkish Delight , had been made before using honey or grape treacle with flour combination . In 17. Century the delight had been made with the refined sugar and starch in Anatolia. Starch changed the production style and the taste of the delight.

Delight and Health

Delight is a natural and healthy alimnt. It is known that it has got too many uses in our daily life. For example, the protein foods are burnt in the body after they are used. As a result urea, uric acid and creatinin and other churn materials occur. Tehese materialsare not thrown out of the body by urea, but they arise in the blood . Because of the pure delight is a source of carbon hydrads its consume is recommended to the people who are the victims of kidney sicknesses continuously. In addition to these, the delight is locally used in Anatolia to cure the wounds and the abscesses.

Delight in Our Daily Life

When we hear the word Lokum “delight” in our daily life, we feel a good and sweet smile and manner on our faces . Sometimes we recommend our friends, our children to delight. We give the name “delight” to the things we like such as songs, beautiful ladies or young girls etc. It is accustomed that a bride groom takes a box of delight to his sweet heart’s family when he visits them. When an easthetic oprerator succeed a difficult opration, he may say “It was a delightful operation”. “Delight” sometimes becomes the subjectof the dreams. According to the foreboding of the dreams, if a person eats delight in his dream, it means that he will receive a good news in a very short time. If a person receives apackage of delight, it means that, that person will lead an ideal life. If a person gives delight to somebody in his dream it means he will make people joyful. Delight is something like a good medicine, so it is called “makes throath at ease or repose.

As it is known , Turkish kitchen is very rich by the point of eating things and drinks. We have too many traditions in exposition and offering our foods and drinks in our kitchens. There are some trays or plates or basket sor glass made dishes etc. To keep and offer delights to our guests in Turkey. Anyway one of the French kings ordered an original delight dish or box to his masters in order to send it to the Ottoman Sultan as a present.

There is an İstanbul song of which the compositor and the writer is unknown. “When I was going to Skütary (Üsküdar, a small coast residence in Bosphourus, İstanbul) I found a handkerchief I filled the handkerchief with the lokums.

The Company ÖZ SAFALAR CONFECTIONARY has been producing qualified Turkish delights in different decades of delicious in accordance with the Turkish Food Codex and hygenal conditions since the year 1992 up to now.
